THE TWIN CITY.

THE IMPRESSIONS OF A VISITOR. of the Principal Business Establishments Reviewed.

(Written Specially for the Sentine 1.) Winston is the bon-ton town of North Carolina. There is a cosmopolitan dash and brightness about the place that is quite captivating, a sort of goaheadativeness not met with in small towns, where things usually move in a groove, and everything and everybody has a sterotyped air. The population has increased a thousand percent in the last nine or ten years. The town

only had about four hundred and fifty people in 1870, and it now foots up to about five thousand souls in sound numbers. New people, with new ideas come here every year and infuse new life and zest into the place. Atlanta Ga., bragged itself into pros-

perity and why not Winston? Why you ought to placard your little city in every city and town in the Union. Make the world think there is no place in North Carolina except Winston. That is the way to get people interested in a place. You have a delightful climate here, elegant water, the grand head center of a great tobacco market. With an immense business here, yearly increasing, there is hardly any conjecture as to where Winston's prosperity may end. The county-seat of Forsyth and the terminus of the North Western North Carolina Railay, and the twin sister of the beauti and CARBONATE OF LIME | ful old town of Salem, there is no reason why Winston should not become Rocky Point, N.
